

Game Show Gurus

New For 2007-2008

What's New at *Game Show Gurus*?

For starters, Prime Time Game Shows such as *Smarter Than a Fifth Grader*, *Power of 10*, *1 Vs. 100*, *Deal or No Deal*, and *Don't Forget The Lyrics* have taken off and become bigger than ever, thus once again proving the value and popularity of our "Live" TV like game shows.

We have tons of new game show props and software plus new game shows to offer.

This year we have acquired a new set of **Trivia Blitz Podiums**, another **Face Off Podium**, new software to run our **Category Busters**, **Survey Says**, **Wheel of Knowledge** (Trivia Wheel), and more. Don't forget the new **SMS message and voting system** so we can display messages from people's mobile phone sent to ours as well as use those messages for audience voting in various contests.

Take It Er Leave It — Our new answer to *Deal or No Deal*, complete with a "Banker" and "Deal" Button. We can set up 16-24 virtual cases containing either money or prizes or both. Real "models" aren't necessary but we can synchronize with them as well. At the present time, only one player or team plays, but soon we will be able to handle three teams. Makes a great add on to one of our other game shows for a finale.

Karaoke Idol / You Talent Show

Host your own talent show with singers, karaoke, dancing, or whatever. With your help of signing up contestants, we host the entire show, provide all necessary tech, and conduct audience polling using our new **SMS Text Message Voting system**.

Promotion Commotion Reaction Attraction — Get your sponsors to pay for us and it is free. We will pass through benefits that no other entertainer will included: Banner Space, Stage Announcements, Prize Give Aways, and more.
